## WALL PADDING FAQs

LET'S GET STARTED

[Contact Us](#) or [Request a Quote](#) by scanning the QR code with your phone's camera.

If this is your first time working with wall padding and you're not sure where to start, we have you covered! With our in-house design team we can help you get the project started and walk you through how to take accurate measurements for the perfect fit.

## SAFETY

### I want to protect not only my surfaces but people. How SAFE are the materials that are being used?

- One of the main reasons we got into the business was to protect people making safety a top priority. All our materials are run through rigorous testing to make sure we pass nationwide fire-retardant codes.
- All our covers are anti-bacterial making sure you and your patrons avoid unnecessary illnesses or infections.
- We also are here for any of your post-purchase needs to make sure you have virtual support in your installation so that your padding is secure to your surface.
- **Impact Testing** – We test to ASTN standards to provide the ultimate impact protection. If you'd like a copy of our certificates, please contact us.

## CUSTOMIZATION

### How is PRICING calculated?

- All padding is unique and priced per project. We charge on square foot of padding.
- Our artwork pricing is dependent on how many colors you choose vs size. One-color artwork will be more affordable than two-color artwork and beyond.

### What TYPE OF ROOMS can you outfit?

- We have done everything to stadiums, high school gyms, to quiet rooms.
- No project is too small or too big for us.

### I've ordered with you before and am looking to ADD-ON TO AN EXISTING PROJECT.

- Welcome back! You may contact us with either your previous PO#, Invoice# or even just the name you purchased under and we can get started right away with additions.

### I'm looking into a FULL CUSTOM BUILD-OUT. What are my choices?

- You're in luck! If you can imagine it, we can build it.
- Hadar Athletic produces all of our products in-house by hand, making sure any custom work is built to your specs.
- We have enhanced digital artwork technology so that you can incorporate any logo, photos, artwork, and graphics into your wall padding.
- We have [Industry Standard Colors](#) and can match any Pantone or HEX# for a truly custom, one-of-kind build.

### I'm a huge fan of the Iowa State Cyclones, can I use their LICENSED LOGOS in my build?

- Hey, us too! We like where your head's at. All licensed images, no matter if it's an Iowa State logo, Busch Light can, or the Sweet Caroline lyrics, must be sent with licensor approval.
- At this point in time Hadar Athletic does not handle securing licensing approval and the customer must provide proof of approval.

INDUSTRY STANDARD COLORS

Click [here](#) or scan the QR code with your phone's camera to read more about our colors on our website.

## MEASUREMENTS

### What MEASUREMENTS should I provide?

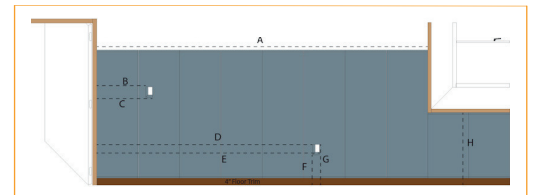

- Your padding comes on a wood panel that is an industry standard of 2' (24") wide.
- We custom cut our paneling to fit your measurements and can create larger width sizes if needed.
- To get started, we ask that you provide us with your wall **height** (*up and down*) and **length** (*across*) measurement. This will allow us to provide you with a rough estimate and we will continue correspondence to make sure all measurements are correct.

### I have OUTLETS, WINDOWS, & POLES that I need the padding to go around, under, or above. How should I measure those?

- Having cut-outs or objects you need to work around is no problem. This will require more communication between you and the team to make sure we are measuring twice and cutting once.
- You will always want to measure your cut-out from where the wall starts and not from cut-out to cut-out.
- You will also want to measure the height and width of the cut-out. See diagram below or [view it online](#).

### I'm still not sure WHERE TO START?

- **Contact Us!** We are here to help. We can do a virtual consultation or you can send us photos so that we can pinpoint the measurements.

## INSTALLATION // DELIVERY

### I'm not sure how I should HANG MY PADDING, what are my options?

- We've made the hardest part of hanging wall mats a breeze with step-by-step instructions that come with every delivery.
- There are multiple hanging methods, and all depends on the type of wall and your preference.
- The first thing is to determine if you'd like to easily remove the padding or if this will be permanent.

### What are your EASILY REMOVABLE options?

- **Aluminum Channels with Commercial Grade Velcro** – The back of your padding will be outfitted with an aluminum channel with Velcro and the corresponding channel will need to be installed on your surface.
- **N-Clips** – We attach an N-clip to the back of your padding and send you the corresponding clip to attach to your wall. The padding will come with a top lip with grommets so that you may hang your padding.
- **Grommets** – The padding will come with a top lip with grommets so that you may hang your padding.

### What are your PERMANENT options?

- For permanent wall padding there will be a lip above the padding where you can screw the boards directly to the wall.
- We do not provide the screws for you as you will know best what type of surface you have and what hardware will be best for a secure fit. For example, if you are screwing into brick, you will need mortar screws.

### Will you DELIVER AND INSTALL the padding for me?

- We have certain requirements that need to be met for us to deliver and install padding, which include travel and installation fees. At this time we do not provide delivery and installation for projects under 500 square feet of padding.
- **Delivery Zones** – Midwest & South USA Regions
